The records responsive to this request are likely available in a database, or in some query-able format. If your department or agency does not have direct access to the records, please raise to the respective department that can run queries directly (eg, through SQL).

Should your agency not have all of the requested records within a single record or

document, please provide me the relevant documents that do, even if that requires more than one class of document. Should some of the records be unavailable, please let me know ahead of time so that we can narrow the request accordingly.

As the records responsive to this request are imperative for understanding how search warrants are executed, I ask that the public interest of these records be evaluated to the extent that the public's interest outweighs this request's burden. To add, this request is being sent to the largest city of every state and will be collated together to create a comprehensive map of search warrants throughout the US. As such, the records are not only important for understanding search warrants at a local level, but also at a national and state-wide level.

Please ensure that provided documents comply with Section 508, as these records will be shared with members of the public who are covered under the ADA. This guide should be helpful: <https://www.hhs.gov/web/section-508/making-files-accessible/checklist/pdf/index.html>

If this request was sent to the wrong department or agency, please let me know so that I can send to the correct place.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 3 business days, as the statute requires.

Sincerely,

Lucy Parsons Labs
